

Mid-Atlantic Neurocritical Care Symposium

May 21-22, 2020

Leadership Hall

University of Maryland School of Medicine
685 W. Baltimore Street, Baltimore, MD 21201

ABOUT THE CONFERENCE

The first annual **Mid-Atlantic Neurocritical Care Symposium** will bring together experts from The University of Maryland, Johns Hopkins University, INOVA, and beyond to discuss the basics of the caring for critically ill neurological patients, as well as highlight recent innovations in the field.

The conference will take place over two days the University of Maryland School of Medicine in Baltimore. The first day will offer a **comprehensive review of the essentials of neurocritical care with a special focus on board relevant material**. Alternatively, for those interested, a **full day Emergency Neurological Life Support** course will be offered including high-fidelity mannequin based simulation. Day two will transition to innovations and controversies in the field in the form of case discussions, roundtables, debates, and two keynote addresses.

KEYNOTE SPEAKERS

Michael N. Diringer, MD
Professor of Neurology and Neurosurgery
Washington University

J. Marc Simard, MD, PhD
Professor of Neurosurgery, Pathology
and Physiology
University of Maryland School of Medicine

TARGET AUDIENCE

This meeting will be of interest to physicians, advanced practice providers, pharmacists, nurses, and others who treat critically ill neurological patients. There will be representation from the disciplines of neurology, critical care, neurosurgery, and emergency medicine.

LEARNING OBJECTIVES

1. Rapidly implement recommended management protocols for neurological emergencies.
2. Describe innovative approaches to the management of neurocritical care patients.
3. Judge the evidence in areas of controversy surrounding the management of neurocritical care patients.
